How To TRULY Leverage Free Enterprise

Would you believe there was a time when the MAJORITY of people made their living from home WITHOUT “jobs” or bosses telling them what to do?

People seeking true freedom and the opportunity to build their own lifestyles free from oppression or economic/political shackles found their way to nations that respected liberty and Free Enterprise.

In fact, up until the turn of the 20th century, the vast majority of people in free societies worked for themselves and not for corporations.

People either owned their own farms and worked their land, or they apprenticed to learn a trade and would offer their services to their target market and generated their own income. Others would learn to be merchants and they would learn what their markets wanted and supply the demand for a wide variety of goods.

The informal educational system taught people how to survive and thrive on their own without the need to look for corporate dead end jobs.

All that changed with the onset of the Industrial Revolution and the Great World Wars.

THREE CRITICAL CHANGES OCCURRED IN THIS ERA.

- 1. The era of LARGE Corporations and Heavy Industry began in earnest.**
- 2. Governments grew exponentially into large & powerful Institutions.**
- 3. Public School Systems were formed to feed the industrial revolution with obedient laborers.**

Huge Corporations Needed Steady Supplies of Obedient, Submissive Employees to Work The Factories

Instead of learning how to leverage Free Enterprise for themselves, children began to learn how to get a “job” and trade their time and future for a low level pay check which only afforded them a low standard of living for the rest of their lives. Most people never learned about Free Enterprise, but rather were taught to work as employees for the few people who WERE taking advantage of the Free Enterprise system for themselves and their families.

As time passed and the huge corporations, large government institutions and a global military industrial complex spread and overwhelmed the economic system, it became VERY difficult for normal, every day people to start their own businesses and leverage the power of the Free Enterprise system.

Today, Most People Living In One of the Greatest Free Enterprise Systems in the World Are Totally CLUELESS About How It Works and How They Can Leverage Free Enterprise In Their Favor

Most people simply drone through the educational system and fight to get low level jobs which only guarantees them the opportunity to FAIL financially.

Experts suggest that about 98% of American people today are controlled by time and money – and by their 65th birthday they end up dead or dead broke and totally dependent on family and the government for a meager existence.

Most people who go to college and study for 4+ years of their life and pay TENS OF THOUSANDS of dollars for their “education” end up taking jobs in fields with NO RELATION to their studies! Some people would call this a tremendous waste of money and time, yet today this is the normal process of “getting an education.”

Most people then reach an age range that scares them to death and causes them to stress about “losing” their job (by getting fired or conveniently laid off) before turning 65 – so they lose any company retirement benefits (most naively believe their companies did not do this on purpose...).

Many people end up totally dependent on family or miniscule government “aid” checks. They worked extremely hard all their adult lives (over 35-40 years), and wound up with next to nothing. The very system they trusted to keep them secure only guaranteed they’d end up in poverty.

Most hard working people who end up in this painful and shocking situation share a couple common traits:

#1 - THEY ALL WORK EXTREMELY HARD & SACRIFICED.

#2 - THEY WORKED FOR SOMEBODY ELSE Or a Corporation/Government job.

Broke people CANNOT teach you or anyone how to succeed with the free enterprise system because they themselves are NOT qualified to teach the subject of succeeding with the Free Enterprise System.

Because most young people are “educated” by people who are financial broke and have no clue how to succeed in the free enterprise system, they grow up wanting to only get a corporate job, believing incorrectly that it is the most secure and smart way to go. Today’s economic times have CLEARLY shown that this philosophy of life is flat wrong.

The First Step To Success and True Freedom Is To Take Back The Power To Do Your Own Thinking, Make Your Own Decisions and Be an Action Taker

Too many people have been taught to let somebody else do all their thinking for them... and let somebody else make all the decisions for them. They don’t know how to make a decision because their parents and school teachers did all the thinking for them.

They are taught to go to work for somebody else and that’s exactly what they do without even thinking about other options. Then their boss does all the thinking for them. – **MOST OF THE TIME- PEOPLE CAN’T MAKE A SIMPLE DECISION TO CHANGE THEIR LIFE.**

Success in life begins with a decision. And failure to make a decision guarantees failure in life.

You’ve got to care enough about your future to make a decision to succeed.

To succeed in a Free Enterprise system you must make the decision to – **GO INTO BUSINESS FOR YOURSELF AND LEARN HOW TO WORK SMART.**

The only way you’ll learn how to work smart is to understand the principles of success. If these success principles are not taught in the school system – then you have to seek out others who are qualified to teach them to you.

Here is where to go to learn true success principles you can model yourself:

1. You can read about success in any good success principles book. After I personally read the books “The Five Major Pieces to the Life Puzzle” by Jim Rohn and “Think and Grow Rich” by Napoleon Hill – they changed my life. Unfortunately – most people today are never referred to study those life changing books and others like them.

2. You can learn from successful entrepreneurs who have a vested interest in mentoring you to true success. Leverage the success and experience of others. If you want to succeed, then you’ve got to find out what successful people do – and then duplicate their work habits.

Don’t just work for somebody else all your life... work for yourself in your own business.

Follow a successful team of mentors who know how to leverage the free enterprise system and build your own business. You’ll never be paid what you’re worth unless you go into business for yourself.

With our business – you will learn to leverage the Free Enterprise system. You will learn true success principles and apply your natural talents to helping others.
